The Car Radio. Reimagined.

PROSCENIUM™
AUDIO SYSTEMS

Looks Better. Sounds Better. Fits Better.

Available in 6.92" and 10.1" tablet-style displays, Proscenium delivers a stunning factory-fit upgrade with OEM-quality materials. The U.S. designed user interface is fast, clear, and customizable - delivering a modern experience that looks and feels factory, but outperforms anything on the market.

A Patented Breakthrough in Car Audio

Proscenium was conceived, designed, and engineered in the USA by some of the nation's top installers and engineers - built from the ground up to OEM standards. Every detail was created to solve real-world installation challenges. Even the custom Graphic User Interface was designed in the U.S., blending cutting-edge technology with an intuitive, driver-focused experience.

Universal Radios.
Thousands of Vehicles.

PROSCENIUM™
AUDIO SYSTEMS

Proscenium™ + Metra Kits

Proscenium universal radios integrate seamlessly with existing Metra 95-series and 99-series dash kits, unlocking thousands of vehicle applications. From classics to today's latest models, Proscenium adapts - giving every driver access to the future of in-dash technology.

- ✔ Works seamlessly with most Metra 95-style and 99-style dash kits for factory-perfect integration
- ✔ Unlocks thousands of vehicle applications
- ✔ Designed to retain OEM fit and finish while upgrading to a modern tablet-style interface

6.9" UNIVERSAL RADIO

10.1" UNIVERSAL FLOATING RADIO

95-8275B 2005-2011 TOYOTA TACOMA DASH KIT

95-7296 2011-2014 HYUNDAI SONATA DASH KIT

Upgrade the Dash. Keep the Features in your **Ford** or **Jeep**

Discover a smarter way to upgrade your factory radio with our vehicle-specific installation and integration kits, available for select Ford and Jeep vehicles, the PR-FD1, PR-FD2, and PR-JP1. These innovative kits are the only patented modular radio dash kits with an interface that mounts directly to the chassis, reducing clutter and excess wiring behind the dash. Designed to pair with the 10.1" universal radio (sold separately), each kit includes an application-specific, preconfigured interface and plug-and-play harnessing for a streamlined installation.
