METRA VEHICLE-SPECIFIC COMPLETE AUDIO KIT

NON-AMPLIFIED

GM-PPKT-2

VEHICLE SPECIFIC COMPLETE AUDIO KIT

FITS SELECT GMC SIERRA/CHEVY SILVERADO CREW CAB 2019-2026*

SALES 386-257-2956

PRODUCT OVERVIEW

Metra has collaborated with VIBE Audio to create this state-of-the-art plug-n-play audio system engineered specifically for 2019-2026 GMC Sierra or Chevy Silverado Crew Cab trucks. This complete, all-in-one premium audio kit includes every component required to install a fully integrated aftermarket sound system, eliminating the need to source parts individually. The kit features matched amplifiers, a total of six speakers for the front and rear of the vehicle, and a 10" subwoofer in a ported enclosure, along with Metra's vehicle-specific installation solutions designed to simplify the upgrade process. Integration components such as the plug-n-play T-harness, speaker adapters, amplifier brackets, and mounting solutions ensure seamless compatibility and straightforward installation. Each component in this kit has been engineered and tuned to work together as a unified system, delivering crystal-clear highs, rich midrange, and deep, controlled bass tailored to the truck's interior. Because the system is designed as a complete package, all included components are required for proper performance and are not intended to be sold or installed separately.

Complete All-In-One Kit
The complete premium audio system includes the following part numbers, which together provide all components required for installation:
- **BLK-GM-PPKT-2A**: Vehicle-specific installation and integration components
- **GM-SL1-10**: 10" subwoofer enclosure

Plug-n-play audio system includes:
- 650-watt mono-block amplifier
- 6-channel DSP & amplifier combo
- Pair 2.7" dash speakers
- Pair 6"x9" front door speakers
- Pair 6.5" rear door speakers
- 10" subwoofer
- 10" down-firing ported sub enclosure
- DSP amp with downloadable vehicle-specific tuning
- Vehicle-specific amplifier installation kit
- Vehicle-specific amp mounting rack
- Detailed step-by-step instructions

B80.6-8DSP-V3 DSP and Mini Class D Amp Combo
- 6-channel
- Max Power: 1200W
- RMS @ 4 ohms Stereo: 6x80W
- Frequency Response: 20Hz – 20kHz
- Dimensions: 1.5" H x 8.6" W x 5.1" D
- Pre-tuned EQ curve loaded on the DSP via computer-based software for maximum performance

PB650.1D-V4 Class D Amplifier
- Max Power: 1200W
- Power Output @ 4 ohms: 325W
- Power Output @ 2 ohms: 475W
- Power Output @ 1 ohm: 650W
- Dimensions: 1.85" H x 9.05" W x 5.27" D

CVEN2.7M-V4 2.7" Dash Speakers
- Peak: 160W RMS, 80W
- Sensitivity: 87dB
- Frequency response: 300Hz – 20kHz
- Impedance: 4 ohms

CVEN69MW-V4 6"x9" Front Door Speakers
- Peak: 260W RMS, 130W
- Sensitivity: 91dB
- Frequency response: 40Hz – 20kHz
- Impedance: 4 ohms
- Metra 82-3004 door speaker adapter plates
- Metra 72-4572 door speaker harnesses

OPTI6-V4 6.5" Rear Door Speakers
- Peak: 270W RMS, 90W
- Sensitivity: 94dB
- Frequency response: 55Hz – 20kHz
- Impedance: 4 ohms
- Metra 82-3006 rear door speaker adapter plates
- Metra 72-4572 rear door speaker harnesses
- Metra IBSBF65 2-piece speaker baffle kit

GM-SL1-10 10" Subwoofer & Down-Firing Ported Enclosure
- Peak: 900W RMS, 300W
- Sensitivity: 85dB
- Frequency response: 30Hz – 1kHz
- Impedance: Dual 2 ohms

Metra AXAMP Vehicle-Specific Amplifier Interface
- Plug-n-play integration harnessing
- Simple installation behind the kick panel
- Retains factory chimes
- T-Harness and OE connectors
- RCAs included

Metra Amplifier Installation Kit
- Vehicle-specific wiring
- 18.5' 4GA OFC power wire
- 21' 8GA OFC ground wire
- T-Spec MANL water-tight fuse holder
- 100A MANL fuse
- Distribution block
- Mounting hardware

Metra Vehicle-specific Amp Mounting Rack
- Vehicle-specific design
- CNC machine-cut with pre-drilled holes
- Designed to mount to OE bolt locations for easy installation behind the rear seat
