DASH DISASSEMBLY

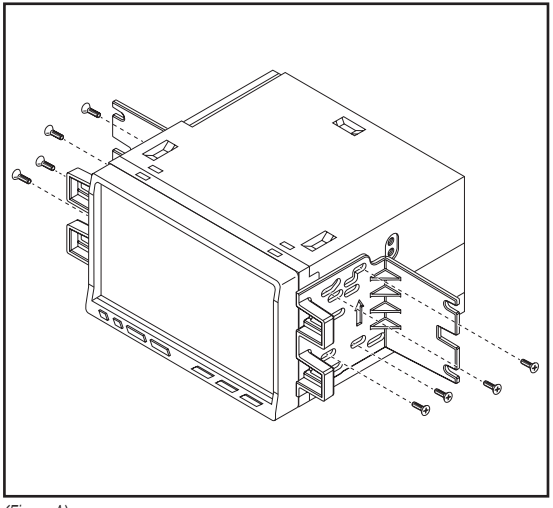

1. Unclip and remove the left and right side panels from the factory radio (or pocket in radio delete models).
2. Remove (2) Phillips screw securing the climate control trim panel, and then unclip and remove the panel.
3. Remove (4) Phillips screw securing the radio or pocket trim panel, and then unclip and remove the panel.
4. Remove (4) Phillips screws securing the radio or pocket, then unplug and remove the radio or pocket.

Please visit Metraonline.com for Dash Disassembly illustrations.

KIT ASSEMBLY

1. Secure the *radio brackets* to the radio using the screws supplied with the radio. (Figure A)
2. Locate the factory wiring harness and antenna connector in the dash and complete all necessary connections to the radio. Metra recommends using the proper mating adapter from Metra and/or Axxess. Test the radio for proper operation.
3. Secure the radio assembly to the dash using the factory screws.
4. Attach the (10) *panel clips* onto the radio trim panel, then snap the panel over the radio assembly to complete the installation.

(Figure A)

IMPORTANT

If you are having difficulties with the installation of this product, please call our Tech Support line at 1-800-253-TECH. Before doing so, look over the instructions a second time, and make sure the installation was performed exactly as the instructions are stated. Please have the vehicle apart and ready to perform troubleshooting steps before calling.
