WELCOME TO METRA ELECTRONICS

THE INSTALLER'S CHOICE

For over 80 years, Metra has been the trusted choice of installers, leading the industry in the design, engineering, and production of innovative installation accessories for mobile electronics. Being the “Installer’s Choice”, we always have the installer and end-user in mind, developing time-saving and factory-finished products. Our new audio installation products are designed to fit select Ford, Tesla, Jeep, Toyota, Mercedes-Benz, and more.

METRA ELECTRONICS

TECH SUPPORT

We are here for you! Should you have pre-sale questions about what will fit your application or which products are required for your installation, our dedicated technical support team is here to help. During your installation, we'll be available every step of the way to help you solve any issues that may arise.

OUR LEADING EDGE

When you call us, you're not reaching an overseas call center with scripted responses. Our technical support team is located right here, at Metra Electronics' corporate headquarters in Holly Hill, FL. This unique setup enables our team to work closely with the same individuals who developed and engineered our products, ensuring you receive knowledgeable answers and prompt support.

T TEXTURED/
SPECIAL FINISH

P PAINTED

D DOUBLE-DIN

D P

95-6563

Fits JEEP Cherokee 2014-2023*

- Designed to fit any standard 4" tall aftermarket radio with an ISO mount provision or an ISO Single-DIN radio with a pocket (sold separately)
- Designed to accommodate the factory hazard and button panel for all trim levels (a separate interface is required for retaining select climate and comfort features)
- Painted scratch-resistant matte black with two included trim options (silver and bronze) for a factory-like appearance
- Made from high-quality ABS plastic for a durable, factory-style fit and finish
- Includes brackets and hardware parts

D P

95-6564B

Fits CHRYSLER 200 2015-2017*

- Designed to fit any standard 4" tall aftermarket radio with an ISO mount provision or an ISO Single-DIN radio with a pocket (sold separately)
- Designed to accommodate the factory hazard and button panel
- Painted scratch-resistant matte black with silver trim for a factory-like appearance
- Made from high-quality ABS plastic for a durable, factory-style fit and finish
- Includes brackets and hardware parts

D T

95-6565HG

Fits CHRYSLER Pacifica 2017-2027*

- Designed to fit any standard 4" tall aftermarket radio with an ISO mount provision or an ISO Single-DIN radio with a pocket (88-00-9004 sold separately)
- Designed to accommodate the factory hazard and button panel
- Painted high-gloss black for a factory-like appearance
- Made from high-quality ABS plastic for a durable, factory-style fit and finish
- Includes brackets and hardware parts

D P

99-7845B

Fits HONDA Odyssey 2011-2017*

- Designed to fit any standard 4" tall (Double-DIN) or 2" tall (Single-DIN) aftermarket radio
- Painted scratch-resistant matte black
- Made from high-quality ABS plastic for an original factory-like fit and finish
- Includes pocket and installation hardware

107-FD10B

Fits **FORD Escape 2020-2026*** (with factory 4.2" or 8" screen)

- Designed exclusively for the 6.8" Pioneer® Modular Solutions receivers
- The Axxess Radio Status Control interface and harness are required for retaining select climate and comfort features (sold separately)
- Painted scratch-resistant matte black to closely match the factory dash
- Made from the highest quality ABS plastic for an original factory-like fit and finish
- Includes mounting brackets and hardware parts
- Refer to the radio manufacturer for current models

89-30-95299

Fits **MULTIPLE Applications 1990-UP***

- Converts most Metra ISO Double-DIN (95-series) installation kits into a Single-DIN (99-series) with blank-off configuration
- Fits in either the upper or lower radio opening of compatible Metra DDIN kits
- Ideal for floating-screen radios that mount to a Single-DIN chassis
- Uses less sub-dash space than a storage pocket, providing additional room for wiring
- Compatible with more than 250 Metra Double-DIN installation kits
- Includes installation hardware

The Power of Metra's Fit Guide

Get quick access to Metra's parts, specs, product info, installation videos, and more:

- Anytime. Anywhere.

- Enables an easy search of not only Metra products, but its other brands as well.
- Allows dealers and customers to browse and filter parts by vehicle specifics such as make, model, year, and trim.
- Allows dealers to quickly place orders for parts - no online payment needed; Metra does the rest.
- Showcases Metra's latest product videos located on its YouTube channel.

82-5610

Fits **FORD Explorer 2016-2019***

6"x 9" SPEAKER ADAPTER

- For the installation of 6"x 9" aftermarket speakers in the factory front door location
- Breakaway tab design
- Sold as a pair

72-6519

Fits Select **CHRYSLER/DODGE/JEEP/MINI Models 2002-UP***

SPEAKER HARNESS

- Speaker harness for installing aftermarket speakers
- Designed to fit multiple makes and models
- Plug-n-play design: No cutting, splicing, or soldering is needed
- Provides an audio signal to the connected speaker

72-9006

Fits Select **VOLKSWAGEN Models 2015-UP***

SPEAKER HARNESS

- Speaker harness for installing an aftermarket speaker
- Designed to fit multiple models
- Plug-n-play design: No cutting, splicing, or soldering is needed
- Provides an audio signal to the connected speaker

MET-HK1

Fits Select **HYUNDAI/KIA Models 2011-2016***

DATA INTERFACE WITH SWC

- Designed for amplified systems
- Provides accessory power (12-volt)
- Retains audio controls on the steering wheel
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Type "C" USB updatable
- All outputs are 250mA

MET-HK2

Fits Select **HYUNDAI/KIA Models 2012-2015***

DATA INTERFACE WITH SWC

- Designed for amplified systems
- Provides accessory power (12-volt)
- Retains audio controls on the steering wheel
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Type "C" USB updatable
- All outputs are 250mA

MET-HK3

Fits Select **HYUNDAI/KIA Models 2010-2013***

DATA INTERFACE WITH SWC

- Designed for amplified systems
- Provides accessory power (12-volt)
- Retains audio controls on the steering wheel
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Type "C" USB updatable
- All outputs are 250mA

MET-GM7

Fits Select **GM Models 2000-2013***

DATA INTERFACE WITH SWC

- Designed for non-amplified and amplified systems
- Provides accessory power (12-volt)
- Retains audio controls on the steering wheel
- Easy-to-set DIP switches for SWC configuration
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Type "C" USB updatable
- All outputs are 250mA

MET-GM8

Fits Select **GM Models 2006-2017***

DATA INTERFACE WITH SWC

- Designed for non-amplified and amplified systems
- Provides accessory power (12-volt)
- Retains audio controls on the steering wheel
- Retains RAP, chimes, Balance and Fade, and backup camera
- Easy-to-set DIP switches for SWC configuration
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Type "C" USB updatable
- All outputs are 250mA

MET-GM10

Fits Select **GM Models 2016-2021***

DATA INTERFACE WITH SWC

- Designed for non-amplified systems
- Provides accessory power (12-volt)
- Retains audio controls on the steering wheel
- Retains RAP, chimes, Balance and Fade, and backup camera
- Easy-to-set DIP switches for SWC configuration
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Supports multiple languages
- Type "C" USB updatable
- All outputs are 250mA

AXAMP-CH8

Fits Select **CHRYSLER** Models **2021-UP***

AMP INTEGRATION INTERFACE

- Designed for amplified and non-amplified systems
- Provides 6 channels of 5-volt RMS audio
- Non-fading full-range output (channels 5 and 6)
- Simple plug-n-play installation behind the radio
- No programming required
- Backup chime level adjustment
- Dual-colored LED feedback light
- Input: 50W per channel
- Amp turn-on trigger (DC): 250mA
- 2-channel S/PDIF out (front)

AXAMP-FD3

Fits Select **FORD** Models **2018-2026***

AMP INTEGRATION INTERFACE

- Designed for non-amplified systems
- Provides 6 channels of 5-volt RMS audio
- Non-fading full-range output (channels 5 and 6)
- Simple plug-n-play installation behind the radio
- No programming required
- Dual-colored LED feedback light
- Input: 50W per channel
- Amp turn-on trigger (DC): 250mA
- 2-channel S/PDIF out (front)

AXAMP-FD4

Fits Select **FORD** Models **2018-UP*** (B&O[®] A2B amplified)

AMP INTEGRATION INTERFACE

- Designed for select vehicles with a B&O A2B amplifier
- Provides 6 channels of 5-volt RMS audio
- Non-fading full-range output (channels 5 and 6)
- Simple plug-n-play installation at the amplifier location
- Amp bypass harness included
- No programming required
- Dual-colored LED feedback light
- Input: 50W per channel
- Amp turn-on trigger (DC): 250mA
- 2-channel S/PDIF out (front)

AXAMP-FD5

Fits Select **FORD** Models **2025-UP*** (B&O[®] A2B amplified)

AMP INTEGRATION INTERFACE

- Designed for select vehicles with a B&O A2B amplifier
- Provides 6 channels of 5-volt RMS audio
- Non-fading full-range output (channels 5 and 6)
- Simple plug-n-play installation at the amplifier location
- Amp bypass harness included
- No programming required
- Dual-colored LED feedback light
- Input: 50W per channel
- Amp turn-on trigger (DC): 250mA
- 2-channel S/PDIF out (front)

AXAMP-GMM50

Fits Select GM Models 2013-2020* (MOST50)

AMP INTEGRATION INTERFACE

- Designed for select vehicles with a Bose® amplifier
- Provides 6 channels of 5-volt RMS audio
- Non-fading full-range output (channels 5 and 6)
- Simple plug-n-play installation at the amplifier location
- Amp bypass harness included
- No programming required
- Dual-colored LED feedback light
- Input: 50W per channel
- Amp turn-on trigger (DC): 250mA
- 2-channel S/PDIF out (front)

AXAMP-HK3

Fits Select HYUNDAI/KIA Models 2016-2025* (S/PDIF amplified)

AMP INTEGRATION INTERFACE

- Designed for select vehicles with a S/PDIF amplifier
- Provides 6 channels of 5-volt RMS audio
- Non-fading full-range output (channels 5 and 6)
- Simple plug-n-play installation at the amplifier location
- Amp bypass harness included
- No programming required
- Dual-colored LED feedback light
- Input: 50W per channel
- Amp turn-on trigger (DC): 250mA
- 2-channel S/PDIF out (front)

AXAMP-HK4

Fits Select HYUNDAI/KIA Models 2020-UP* (S/PDIF amplified)

AMP INTEGRATION INTERFACE

- Designed for select vehicles with a S/PDIF amplifier
- Provides 6 channels of 5-volt RMS audio
- Non-fading full-range output (channels 5 and 6)
- Simple plug-n-play installation at the amplifier location
- Amp bypass harness included
- No programming required
- Dual-colored LED feedback light
- Input: 50W per channel
- Amp turn-on trigger (DC): 250mA
- 2-channel S/PDIF out (front)

AXAMP-HN3

Fits Select HONDA Models 2016-2022*

AMP INTEGRATION INTERFACE

- Designed for select vehicles with a S/PDIF amplifier
- Provides 6 channels of 5-volt RMS audio
- Non-fading full-range output (channels 5 and 6)
- Simple plug-n-play installation at the amplifier location
- Amp bypass harness included
- No programming required
- Dual-colored LED feedback light
- Input: 50W per channel
- Amp turn-on trigger (DC): 250mA
- 2-channel S/PDIF out (front)

AXAMP-LC1

Fits Select LINCOLN Models 2018-UP* (REVEL® A2B amplified)

AMP INTEGRATION INTERFACE

- Designed for select vehicles with a REVEL A2B amplifier
- Provides 6 channels of 5-volt RMS audio
- Non-fading full-range output (channels 5 and 6)
- Simple plug-n-play installation at the amplifier location
- Amp bypass harness included
- No programming required
- Dual-colored LED feedback light
- Input: 50W per channel
- Amp turn-on trigger (DC): 250mA
- 2-channel S/PDIF out (front)

AXAMP-TY5

Fits Select TOYOTA Models 2022-UP*

AMP INTEGRATION INTERFACE

- Designed for non-amplified and amplified systems
- Provides 6 channels of 5-volt RMS audio
- Non-fading full-range output (channels 5 and 6)
- Simple plug-n-play installation behind the radio
- No programming required
- Dual-colored LED feedback light
- Input: 50W per channel
- Amp turn on trigger (DC): 250mA
- 2-channel S/PDIF out (front)

NEW AMP & CAMERA RETENTION LINE ADDITIONS

AXM150-VW1

Fits Select AUDI/VW Models 2015-2024*

MOST150 AMP RETENTION INTERFACE

- Add-on amplifier retention interface
- Retains the factory amplifier in select Audi and VW vehicles
- Retains balance
- Micro "B" USB updatable

AXBUC-CH1LVDS

Fits Select RAM/JEEP Models 2018-UP*

LVDS BACKUP CAMERA RETENTION INTERFACE

- Retains the factory-installed LVDS HD camera when installing an aftermarket radio
- Designed for vehicles equipped with a factory HD camera
- Selectable video output formats: AHD or CVBS for compatibility with different radios
- AHD output supports 720p (25fps) or 1080p (30fps) resolution
- CVBS output supports 480p (NTSC) resolution
- Factory camera input via Fakra connector
- 12V DC power supply
- Compact design installs behind the radio

COMMON FEATURES FOR AXDSPX DSP PRODUCTS

- Selectable 31-band Graphic EQ or 5-band parametric EQ on each channel with high-pass, low-pass, and bandpass filters
- 6 inputs and 10 individually assignable outputs
- Selectable slope (12, 24, 36, or 48db per octave)
- Selectable Graphic or Parametric EQ
- Independent equalization on each of the 10 outputs
- Each channel can be delayed independently up to 10 ms
- Clipping detection and limiting circuits
- Settings adjusted wirelessly in the free AX-DSP-XL app available for smartphones and tablets
- Read, write, and store configurations for future recall
- Password-protect feature available in the app

AXDSPX-A2B4

Fits Select **FORD** Models **2025-UP*** (B&O® A2B amplified)

DSP DATA INTERFACE

- Designed for select vehicles with a B&O A2B amplifier
- Package includes the A2B data interface with built-in AXDSP-X technology, vehicle-specific T-harness, and an amplifier bypass harness
- Factory amplifier does not need to be retained
- Voice prompts go through the aftermarket amplifier
- Install location: At the factory amplifier
- Micro “B” USB updatable

AXDSPX-GMA2B1

Fits Select **GM** Models **2023-UP*** (A2B amplified)

DSP DATA INTERFACE

- Designed for GM A2B amplifiers
- Package includes the AXDSP-X interface and vehicle-specific T-harness
- Voice prompts go through the aftermarket amplifier
- Install location: At the factory amplifier
- Micro “B” USB updatable

NEW **REPLACE FACTORY RADIO** INTEGRATIONS

AXDIS-CH8BT

Fits Select **CHRYSLER** Models **2024-UP***

DATA INTERFACE WITH SWC + BLUETOOTH® WIRELESS CONNECTIVITY

- Designed for amplified and non-amplified systems
- Retains and controls personalization settings via Bluetooth® wireless technology when used with the free downloadable Axxess Custom BT app for smartphones and tablets
- Provides accessory power (12-volt 10-amp)
- Provides NAV outputs (parking brake, reverse, speed sense)
- Retains backup sensor chimes
- Retains audio controls on the steering wheel
- Retains the factory 3.5mm AUX-IN jack
- Retains balance and fade (excludes amplified models)
- Micro “B” USB updatable

AXTC-CH8

Fits Select **CHRYSLER** Models **2024-UP***

DATA INTERFACE WITH SWC

- Designed for amplified and non-amplified systems
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Retains backup sensor chimes through onboard speaker
- Built-in features like SWC & Auto-Detect
- Auto-Detect feature - automatically detects the vehicle type, radio connection, and preset controls
- Ability to dual-assign steering wheel control buttons
- Designed to work with major radio brands
- Can be manually programmed for most vehicles
- Retains settings, even after battery disconnection
- Provides 12-volt illumination output
- Micro “B” USB updatable

NEW RADIO STATUS CONTROL KIT

Upgrading the radio in select 2008–2013 Infiniti G37 models isn't straightforward—without the right integration, you lose critical vehicle functions. This package is purpose-built to solve that.

By combining the Axxess Radio Status Control harness with a vehicle-specific dash kit, this solution provides the foundation required to successfully install a 6.8" modular radio while preserving the features drivers rely on every day.

When paired with the required Axxess Radio Status Control interface (sold separately), factory vehicle data, climate controls, and personalization settings are retained and accessible through the aftermarket touchscreen—features that are typically lost when replacing the factory radio.

AXRSC-IN1

Fits **INFINITI G37 2008–2013***

RADIO STATUS CONTROL KIT

- Designed for 6.8" modular radio installation in select Infiniti G37 vehicles
- Vehicle-specific harnessing supports streamlined installation
- Retains functionality of the factory climate control panel
- Enables display and control of HVAC, gauges, and vehicle personalization settings through the aftermarket radio (Axxess Radio Status Control interface required)
- Retains factory backup camera
- Maintains steering wheel audio controls
- Preserves factory safety chimes via included external speaker
- Supports Retained Accessory Power (R.A.P.)
- Provides 12V/10A accessory output and NAV outputs (parking brake, reverse, speed sense)
- Hazard button functionality is retained only when used with the required Axxess Radio Status Control interface
- Finished in scratch-resistant matte black for an OEM-style appearance
- Multilingual support: English, Spanish, and French
- 1-year limited warranty
- Note: AXRSC Radio Status Control Interface is required (sold separately) for hazard button functionality and retention and control of vehicle settings on the aftermarket screen

NEW RADIO STATUS CONTROL HARNESS FOR AKÜSTIK RADIOS

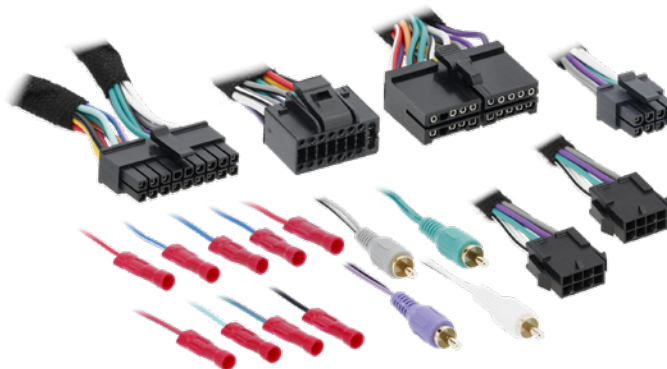

This radio-specific radio status control harness provides installers with a cost-effective option for simplifying the installation of select aftermarket radios. Paired with our vehicle-specific, "car-side" harness, this radio status control harness provides a complete plug-n-play installation, with no hardwiring required. It's an ideal choice for installers who want to reduce installation time while ensuring clean, professional wiring connections.

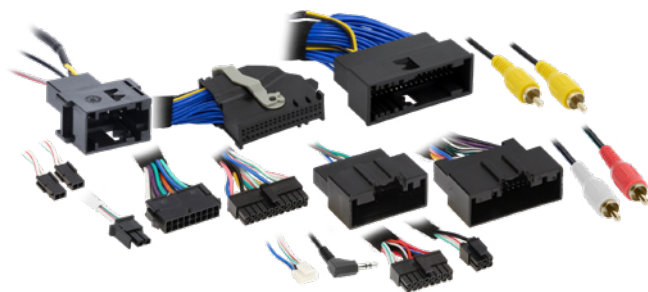

AXRSCH-AK1

Fits **AKUSTIK RADIOS**

RADIO STATUS CONTROL HARNESS

- Plug-n-play harness to be paired with the AXRSC interface and AXRSC vehicle-specific harnesses
- Compatible with select Akustik™ radios
- Radio manufacturer's included harness not required for installation
- No hardwiring required

AXRSCH-ES1

Fits Select FORD Models 2013-2019*

RADIO STATUS CONTROL HARNESS

- AXRSC radio status control interface required (sold separately)
- Designed for select aftermarket radios
- Designed for non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, speed sense)
- Allows a visual of HVAC and gauges on the aftermarket radio screen
- Retains audio controls on the steering wheel
- Allows for auto stop/start override (if equipped)
- Works in both single- and dual-zone vehicles
- Allows the retention and adjustment of the OE Personalization Settings
- Plug-n-play installation

AXRSCH-FD4

Fits Select FORD Models 2021-UP*

RADIO STATUS CONTROL HARNESS

- AXRSC radio status control interface required (sold separately)
- Designed for select aftermarket radios
- Designed for non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, speed sense)
- Allows a visual of HVAC and gauges on the aftermarket radio screen
- Allows adjustment of HVAC functions through the aftermarket radio screen
- Retains audio controls on the steering wheel
- Allows for auto stop/start override (if equipped)
- Works in both single- and dual-zone vehicles
- Allows the retention and adjustment of the OE Personalization Settings
- Plug-n-play installation

AXRSCH-HD2

Fits HARLEY-DAVIDSON Street Glide 2014-2023*

RADIO STATUS CONTROL HARNESS

- Requires AXRSC radio status control interface (sold separately)
- Compatible with select aftermarket radios
- Designed for non-amplified and amplified motorcycles
- Allows adjustment of ETMIS through compatible radios
- Provides accessory power (12-volt 10-amp)
- Retains handlebar audio controls
- Micro "B" USB updatable
- Plug-n-play installation

AXRSCH-NI2

Fits Select NISSAN Models 2013-2016*

RADIO STATUS CONTROL HARNESS

- AXRSC radio status control interface required
- Designed for select aftermarket radios
- Designed for amplified or non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, speed sense)
- Allows a visual of HVAC and gauges on the aftermarket radio screen
- Allows adjustment of HVAC functions through the aftermarket radio screen
- Retains audio controls on the steering wheel
- Works in both single and dual-zone vehicles
- Allows the retention and adjustment of the OE personalization settings
- Plug-n-play installation

AXRSCH-VW2

Fits Select VOLKSWAGEN Models 2015-2022*

RADIO STATUS CONTROL HARNESS

- AXRSC radio status control interface required (sold separately)
- Designed for select aftermarket radios
- Designed for non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, speed sense)

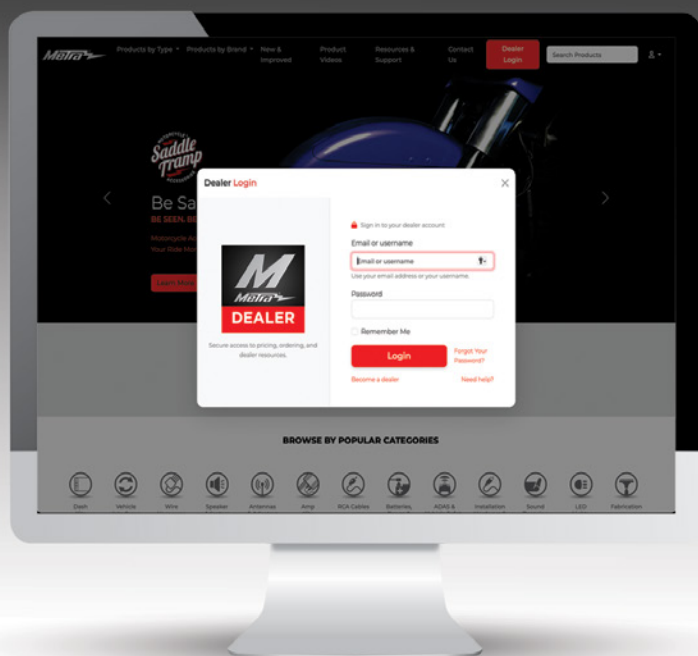

- Allows a visual of HVAC and gauges on the aftermarket radio screen
- Allows adjustment of HVAC functions through the aftermarket radio screen
- Retains audio controls on the steering wheel
- Allows for auto stop/start override (if equipped)
- Works in both single- and dual-zone vehicles
- Allows the retention and adjustment of the OE Personalization Settings
- Plug-n-play installation
