BUILD THE COMPLETE UPGRADE **WITH AKÜSTIK**

ONE COMPLETE INSTALLATION ECOSYSTEM

Smart receivers. Vehicle-specific integration.

Aküstik is a NEW multimedia receiver and installation line built around the complete upgrade—not just the radio. The lineup offers three screen formats and gives installers a clear path to compatible interface, harnessing, and dash components needed to finish the job.

The lineup includes fixed 9-inch and 10-inch receivers, along with a 10.1-inch adjustable floating-screen model. Aküstik brings modern connectivity, camera support, steering wheel audio control readiness, and built-in sound-tuning features to a wide range of installations.

EVERYTHING YOU NEED ALL IN ONE PLACE

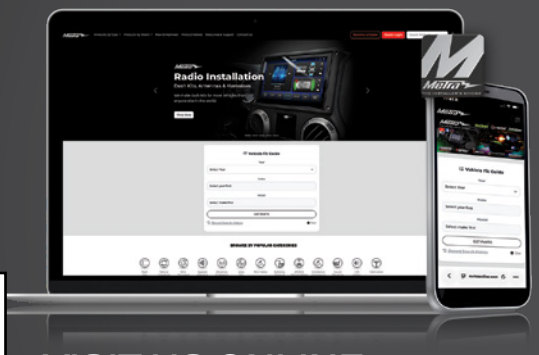

Get the most out of your Aküstik Smart Multimedia Receiver with our dedicated online support center. Whether you're installing, setting up, or troubleshooting your radio, you'll find the resources you need to keep everything running smoothly. Access detailed User Manuals, helpful FAQs & Troubleshooting Guides, and RMA & Warranty Information in one convenient location. Our support center provides comprehensive resources for the AK-9T, AK-10T, and AK-10.1F receivers, making it easy to find answers and get the assistance you need, whenever you need it.

DASH KITS DESIGNED EXCLUSIVELY FOR THE AKÜSTIK RADIO

A growing lineup of vehicle-specific dash kits gives the Aküstik 9" and 10" receivers a secure, coordinated fit in select Chevrolet, Ford, GMC, Honda, Jeep, RAM, Subaru, and Toyota vehicles. These kits are engineered only for compatible Aküstik radios and include mounting hardware and installation instructions. Universal adapters expand compatibility between supported 9-inch and 10-inch kit configurations, giving shops more flexibility when building a complete vehicle-specific package.

09-SERIES DASH KITS

Purpose-built exclusively for the 9-inch Aküstik AK-9T radio, these kits provide a secure fit in the factory dashboard without the uncertainty of matching a universal radio to the correct installation components.

The 09-series dash kits are compatible with the 10-inch Aküstik AK-10T radio when used with the required mounting adapter, sold separately, seen on page 17

09-3016

Fits Chevrolet Colorado | GMC Canyon **2015-2022**

- Designed exclusively for the 10-inch Aküstik AK-10T radio
- Compatible with the 9-inch Aküstik AK-9T radio when used with the required mounting adapter, sold separately
- Not compatible with other aftermarket radios
- Vehicle-specific design provides a secure fit in select Jeep Compass dashboards
- Purpose-built components simplify product selection and remove the guesswork from matching the radio and dash kit
- Includes radio mounting hardware

Complete Your Installation:

- Aküstik AK-10T radio, sold separately
- Compatible vehicle-specific radio interface, sold separately

10-7804

Fits Honda Accord **2013-2018**

- Designed exclusively for the 10-inch Aküstik AK-10T radio
- Compatible with the 9-inch Aküstik AK-9T radio when used with the required mounting adapter, sold separately
- Not compatible with other aftermarket radios
- Vehicle-specific design provides a secure fit in select Honda Accord dashboards
- Purpose-built components simplify product selection and remove the guesswork from matching the radio and dash kit
- Includes radio mounting hardware

Complete Your Installation:

- Aküstik AK-10T radio, sold separately
- Compatible vehicle-specific radio interface, sold separately

10-8220

Fits Toyota Sequoia **2008-2022** | Tundra **2007-2013**

- Designed exclusively for the 10-inch Aküstik AK-10T radio
- Compatible with the 9-inch Aküstik AK-9T radio when used with the required mounting adapter, sold separately
- Not compatible with other aftermarket radios
- Vehicle-specific design provides a secure fit in select Toyota Sequoia and Tundra dashboards
- Purpose-built components simplify product selection and remove the guesswork from matching the radio and dash kit
- Includes radio mounting hardware

Complete Your Installation:

- Aküstik AK-10T radio, sold separately
- Compatible vehicle-specific radio interface, sold separately

10-8251

Fits Toyota Tacoma **2016-2023**

- Designed exclusively for the 10-inch Aküstik AK-10T radio
- Compatible with the 9-inch Aküstik AK-9T radio when used with the required mounting adapter, sold separately
- Not compatible with other aftermarket radios
- Vehicle-specific design provides a secure fit in select Toyota Tacoma dashboards
- Purpose-built components simplify product selection and remove the guesswork from matching the radio and dash kit
- Includes radio mounting hardware

Complete Your Installation:

- Aküstik AK-10T radio, sold separately
- Compatible vehicle-specific radio interface, sold separately

10-8276

Fits Toyota Camry **2021-2024**

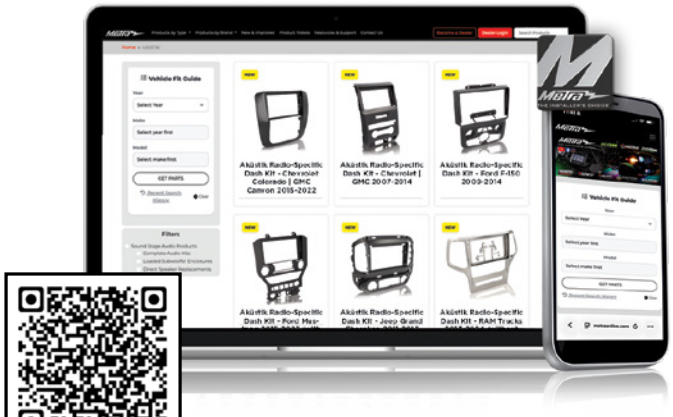

- Designed exclusively for the 10-inch Aküstik AK-10T radio
- Compatible with the 9-inch Aküstik AK-9T radio when used with the required mounting adapter, sold separately
- Not compatible with other aftermarket radios
- Vehicle-specific design provides a secure fit in select Toyota Camry dashboards
- Purpose-built components simplify product selection and remove the guesswork from matching the radio and dash kit
- Includes radio mounting hardware

Complete Your Installation

- Aküstik AK-10T radio, sold separately
- Compatible vehicle-specific radio interface, sold separately

COMPLETE YOUR INSTALL!

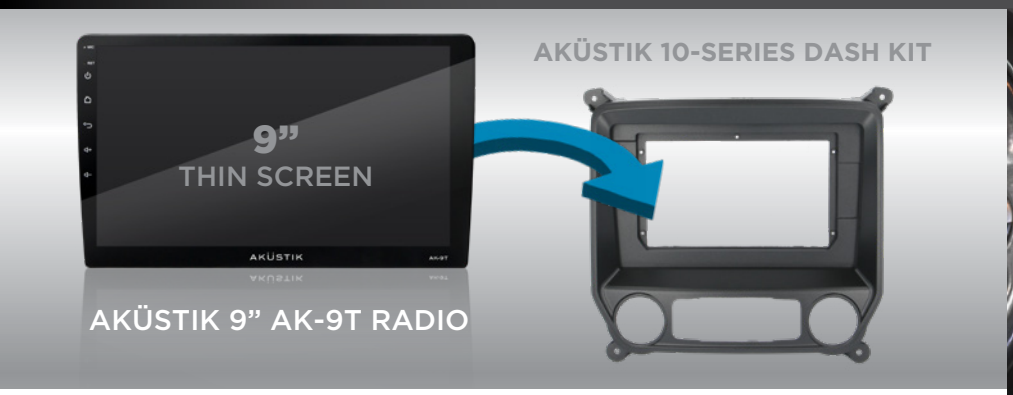

FIND A COMPATIBLE VEHICLE-SPECIFIC INTERFACE FOR THESE DASH KITS ON PAGE 20

GET THE 9” AK-9T RADIO TO FIT IN YOUR 10-SERIES AKÜSTIK DASH KIT

The AK-9T radio mounting adapter expands compatibility for the 10-inch dash kit configurations, allowing installation of the 9” AK-9T radio. This give shops more flexibility when building a complete vehicle-specific package.

09-0001
Fits 10” Dash Kits

- Adapts compatible 10-inch Aküstik dash kits for installation of the 9-inch AK-9T radio
- Reduces the dash kit opening to eliminate visible gaps around the smaller display
- Supports secure radio mounting and proper alignment
- Maintains a clean, factory-matched appearance
- Eliminates the need for custom dash fabrication

Complete Your Installation:
- Compatible Aküstik radio and vehicle-specific Aküstik dash kit, sold separately

VEHICLE INTEGRATION THAT **COMPLETES THE JOB**

These Metra radio interfaces are designed specifically for the new Aküstik Smart Multimedia Receivers and support factory features based on the vehicle application. Available functions may include steering wheel audio controls, factory cameras, OEM USB and auxiliary inputs, factory amplifiers, safety chimes, personalization settings, and HVAC information or control. These components give installers a coordinated path from the new receiver to the vehicle systems it needs to communicate with.

MET-AK SERIES INTERFACE

INSTALL AN AKÜSTIK RADIO WHILE **RETAINING ESSENTIAL FACTORY FEATURES**

- **Designed specifically for Aküstik radios**
- **Retains audio controls on the steering wheel**
- **Retains and allows adjustment of factory personalization settings**
- **Displays supported HVAC status on the radio screen**
- **Allows HVAC control from the radio screen in supported applications**
- **Compatible with single- and dual-zone climate systems**

MET-AK-CH1

Fits Chrysler | Dodge | Jeep | RAM **2013-2024**

- Designed for amplified and non-amplified vehicles
- Designed specifically for Aküstik radios
- Retains audio controls on the steering wheel
- Retains the factory CVBS backup camera, if equipped
- Retains active parking lines in vehicles equipped with a CVBS camera
- Retains the OEM USB port and AUX input
- Displays HVAC status on the Aküstik radio screen
- Compatible with single- and dual-zone climate systems
- Includes antenna adapter
- Plug-and-play installation
- **Note:** Factory LVDS backup camera retention requires an additional camera retention harness

MET-AK-CH2

Fits Jeep Grand Cherokee **2011-2013**

- Designed for amplified and non-amplified vehicles
- Designed specifically for Aküstik radios
- Retains audio controls on the steering wheel
- Displays HVAC status on the Aküstik radio screen
- Compatible with single- and dual-zone climate systems
- Includes antenna adapter
- Plug-and-play installation

MET-AK-FD1

Fits Ford F-Series **2009-2016**

- Designed for amplified and non-amplified vehicles
- Designed specifically for Aküstik radios
- Retains audio controls on the steering wheel
- Retains the factory backup camera, if equipped
- Displays supported HVAC status information on the Aküstik radio screen
- Includes antenna adapter
- Plug-and-play installation

MET-AK-GM1

Fits Chevrolet | GMC **2014-2020**

- Designed for amplified and non-amplified vehicles
- Designed specifically for Aküstik radios
- Compatible with GM LAN10 data systems equipped with RPO code IOR
- Retains audio controls on the steering wheel
- Retains the factory backup camera
- Retains the OEM USB port
- Retains and allows adjustment of factory personalization settings
- Displays HVAC status on the Aküstik radio screen
- Allows HVAC control from the radio screen in supported applications; some applications do not support two-way climate control
- Compatible with single- and dual-zone climate systems
- Retains safety chimes through the included off-board speaker
- Includes antenna adapter
- Plug-and-play installation
- Does not retain R.A.P. (Retained Accessory Power)

MET-AK-GM2

Fits Chevrolet Colorado | GMC Canyon **2019-2022**

- Designed for non-amplified vehicles; does not retain the factory amplifier
- Designed specifically for Aküstik radios
- Compatible with GM RPO code IOR
- Retains audio controls on the steering wheel
- Retains the factory backup camera
- Retains the OEM USB port
- Retains and allows adjustment of factory personalization settings
- Displays HVAC status on the Aküstik radio screen
- Allows HVAC control from the radio screen in supported applications; some applications do not support two-way climate control
- Compatible with single- and dual-zone climate systems
- Retains safety chimes through the included off-board speaker
- Includes antenna adapter
- Plug-and-play installation
- Does not retain R.A.P. (Retained Accessory Power)

MET-AK-GM3

Fits Chevrolet Colorado | GMC Canyon | Terrain **2019-2022**

- Designed for non-amplified vehicles
- Designed specifically for Aküstik radios
- Compatible with GM RPO codes IOS, IOT, and IOU
- Retains audio controls on the steering wheel
- Retains the factory backup camera
- Retains the OEM USB port
- Retains and allows adjustment of factory personalization settings
- Displays HVAC status on the Aküstik radio screen
- Allows HVAC control from the radio screen in supported applications; some applications do not support two-way climate control
- Compatible with single- and dual-zone climate systems
- Retains safety chimes through the included off-board speaker
- Includes antenna adapter
- Plug-and-play installation
- Does not retain R.A.P. (Retained Accessory Power)

MET-AK-GM4
Fits GMC Yukon **2007-2014**

- Designed for amplified and non-amplified vehicles
- Designed specifically for Aküstik radios
- Compatible with GM 29-bit LAN data systems
- Retains audio controls on the steering wheel
- Retains the factory backup camera, if equipped
- Retains and allows adjustment of factory personalization settings
- Displays HVAC status on the Aküstik radio screen
- Compatible with single- and dual-zone climate systems
- Retains safety chimes through the included off-board speaker
- Includes antenna adapter
- Plug-and-play installation
- Does not retain R.A.P. (Retained Accessory Power)
- 1-year warranty
- **Note:** Does not fit 2012-2014 models with factory navigation

MET-AK-GM5
Fits Chevrolet | GMC **2014-2020**

- Designed for amplified and non-amplified vehicles
- Designed specifically for Aküstik radios
- Compatible with GM LAN09 data systems equipped with RPO code I05 or I06
- Retains audio controls on the steering wheel
- Retains the factory backup camera
- Retains the OEM USB port
- Retains and allows adjustment of factory personalization settings
- Displays HVAC status on the Aküstik radio screen
- Allows HVAC control from the radio screen in supported applications; some applications do not support two-way climate control
- Compatible with single- and dual-zone climate systems
- Retains safety chimes through the included off-board speaker
- Includes antenna adapter
- Plug-and-play installation
- Does not retain R.A.P. (Retained Accessory Power)

MET-AK-HD1
Fits Honda Civic **2022-2024** (with factory 7" screen)

- Designed for non-amplified vehicles
- Designed specifically for Aküstik radios
- Designed for models with a factory 7-inch screen
- Retains audio controls on the steering wheel
- Retains the factory backup camera
- Retains the factory LaneWatch camera
- Retains the OEM USB port and AUX input
- Displays HVAC status on the Aküstik radio screen
- Includes antenna adapter
- Plug-and-play installation

MET-AK-TY1
Fits Toyota Tundra **2007-2013**

- Designed for amplified and non-amplified vehicles
- Retains JBL and Harman factory amplifiers
- Designed specifically for Aküstik radios
- Retains audio controls on the steering wheel
- Retains the factory backup camera in most 2012-2013 vehicles
- Retains the factory 360-degree camera, if equipped
- Provides a reverse trigger in most 2012-2013 vehicles
- Retains the OEM USB port and factory AUX input
- Displays HVAC status on the Aküstik radio screen
- Includes antenna adapter
- Plug-and-play installation

MET-AK-TY2
Fits Toyota **2014-2024**

- Designed for amplified and non-amplified vehicles
- Designed specifically for Aküstik radios
- Retains audio controls on the steering wheel
- Retains the factory backup camera, if equipped
- Retains the factory AUX input
- Displays HVAC status on the Aküstik radio screen
- Includes antenna adapter
- Plug-and-play installation

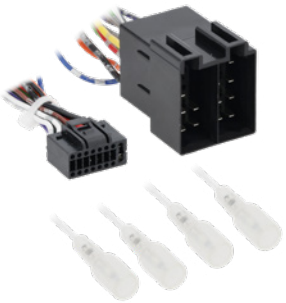

MET-AK-TY3
Fits Toyota Camry | Tacoma **2018-2023**

- Designed for amplified and non-amplified vehicles
- Designed specifically for Aküstik radios
- Retains audio controls on the steering wheel
- Retains the factory backup camera, if equipped
- Retains the OEM USB port and factory AUX input
- Displays HVAC status on the Aküstik radio screen
- Includes antenna adapter
- Plug-and-play installation

AKÜSTIK RADIO POWER HARNESS

These universal power harnesses simplify installation of an Aküstik AK-9T, AK-10T, or AK-101F radio. They connect the radio directly to a compatible vehicle-specific harness for easy, efficient installation. Their pre-terminated connections eliminate hardwiring and reduce installation time. The plug-and-play design ensures clean, professional wiring for a smooth installation.

MET-AK-ISO1
Power Harness for the Akustik AK-9T & AK-10T Radio

- Universal power harness for Aküstik 9T and 10T radios
- Connects directly to compatible vehicle-specific harnesses
- Pre-terminated connections eliminate hardwiring
- Plug-and-play design helps reduce installation time
- Provides clean, professional wiring connections

MET-AK-ISO2
Power Harness for the Akustik AK-10.1F Radio

- Universal power harness for the Aküstik 10.1F radio
- Connects directly to compatible vehicle-specific harnesses
- Pre-terminated connections eliminate hardwiring
- Plug-and-play design helps reduce installation time
- Provides clean, professional wiring connections

MORE VEHICLE APPLICATIONS. MORE INTEGRATION OPTIONS.

The Aküstik Smart Multimedia Receivers offer even greater installation flexibility with compatibility across both the MET-AK series vehicle-specific interfaces and the Axxess AXRSC (Radio Status Control) interfaces. Both integration solutions are designed to retain essential factory features, including steering wheel audio controls, factory cameras, safety chimes, and other vehicle functions, depending on the application. Having AXRSC compatibility opens access to hundreds of additional vehicle applications which gives installers more options to deliver a seamless upgrade while maintaining the factory features drivers depend on.

AXRSC SERIES INTERFACE

RETAIN, DISPLAY, AND CONTROL VEHICLE INFORMATION AND SETTINGS ON YOUR AFTERMARKET RADIO SCREEN IN 3 EASY STEPS!

Upgrade without compromise with the AXRSC (Axxess Radio Status Control) interface—the smart solution that bridges the gap between today's most popular aftermarket radios and your vehicle's factory technology.

The AXRSC retains the features drivers rely on every day, including steering wheel audio controls, factory backup camera functionality, safety chimes, and Retained Accessory Power (R.A.P.). Depending on the vehicle application, the Akustik radio can also retain and display factory vehicle information, HVAC controls, gauges, and personalization settings while maintaining the radio manufacturer's native user interface.

FLEXIBLE À LA CARTE INSTALLATION
The AXRSC uses a fully à la carte system with no preconfigured vehicle-specific packages. Every installation requires an AXRSC interface and the appropriate vehicle-specific harness, which must be purchased separately.

The Akustik radio-specific accessory harness is not required, but adding this harness creates a complete plug-and-play connection to the Akustik radio.

By selecting components individually, customers get the right solution for their specific vehicle and radio. This flexible approach also lets retailers and installers keep a versatile selection of interfaces and harnesses on hand, making the correct components readily available without requiring a special-order package.

RETAIN AND INTEGRATE FACTORY FEATURES
More than just a radio replacement interface, the AXRSC is designed to retain and integrate essential factory features. Built-in technology provides accessory power and navigation outputs for parking brake, reverse, and speed sense signals, while support for auto stop/start override adds another level of convenience.

Whether upgrading an amplified or non-amplified system, the AXRSC helps simplify installation and minimize guesswork. Add the appropriate vehicle-specific dash kit and antenna adapter to complete a professional-grade installation that retains key factory features while unlocking the full potential of your new Akustik radio.

FIND MORE INFORMATION AT
METRAONLINE.COM/PRODUCT/AXRSC

STEP 1:

GET THE RADIO STATUS CONTROL INTERFACE

Engineered for broad compatibility with today's leading radio brands, the Axxess Radio Status Control (AXRSC) interface seamlessly bridges aftermarket and factory technology to retain vehicle information and settings typically lost during radio replacement. Ideal for integrating radios purchased from online retailers, the AXRSC retains key functions accessible through the new head units, a clean, professional installation, and a fully connected experience.

AXRSC
Multi-App **2010-UP**

- Designed for select aftermarket radios
- Designed for amplified or non-amplified systems
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Retains factory backup camera*
- Allows display of HVAC and gauges on aftermarket radio screen*
- Allows adjustment of HVAC functions through aftermarket radio screen*
- Retains audio controls on the steering wheel
- Allows for auto stop/start override*
- Works in both single and dual-zone vehicles*
- Retains safety chimes through an included off-board speaker*
- Allows for the retention and adjustment of the factory personalization menu through the aftermarket radio screen*
- Plug-n-play installation
- Micro "B" USB updatable

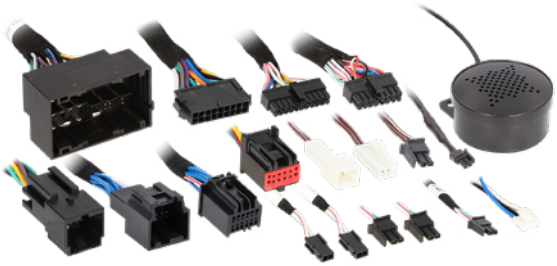

*Features retained are dependent on the vehicle application.

STEP 2:

SELECT YOUR RADIO STATUS CONTROL VEHICLE-SPECIFIC HARNESSING

These vehicle-specific harnesses are designed to work with the AXRSC interface and are required for full functionality. Hardwire them to the aftermarket radio harness—or skip hardwiring by using a radio-specific harness from STEP 3 for a complete plug-n-play installation.

AXRSCH-CH5
Fits Chrysler **2013-2023**

- AXRSC radio status control interface required
- Designed for select aftermarket radios
- Designed for amplified or non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Retains factory backup camera
- Allows a visual of HVAC and gauges on the aftermarket radio screen*
- Allows adjustment of HVAC functions through the aftermarket radio screen*
- Retains audio controls on the steering wheel
- Allows for auto stop/start override*
- Works in both single and dual-zone vehicles
- Retains safety chimes through an included off-board speaker
- Allows the retention and adjustment of the OE personalization settings
- NOTE: Backup camera not retained on Jeep JL/JT

*Features retained are dependent on the vehicle application. Refer to vehicle-specific instructions for details

AXRSCH-CH8
Fits Chrysler **2021-UP**

- AXRSC radio status control interface required
- Designed for select aftermarket radios
- Designed for non-amplified and amplified systems
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, speed sense)
- Allows a visual of HVAC and gauges on the aftermarket radio screen*
- Allows adjustment of HVAC functions through the aftermarket radio screen*
- Retains audio controls on the steering wheel
- Allows for auto stop/start override*
- Works in both single and dual-zone vehicles
- Retains safety chimes through an included off-board speaker
- Allows the retention and adjustment of the OE personalization settings
- *Features retained are dependent on the vehicle application. Refer to vehicle-specific instructions for details.

AXRSCH-ES1

Fits Ford **2013-2019**

- AXRSC radio status control interface required
- Designed for select aftermarket radios*
- Designed for non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Allows a visual of HVAC and gauges on the aftermarket radio screen*
- Allows adjustment of HVAC functions through aftermarket radio screen*
- Retains audio controls on the steering wheel
- Allows for auto stop/start override (if equipped)
- Works in both single and dual-zone vehicles
- Allows the retention and adjustment of the OE personalization settings

*Features retained are dependent on the vehicle application. Refer to vehicle-specific instructions for details

AXRSCH-FD2

Fits Ford **2011-2023**

- AXRSC radio status control interface required
- Designed for select aftermarket radios*
- Designed for non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Allows a visual of HVAC and gauges on the aftermarket radio screen*
- Allows adjustment of HVAC functions through aftermarket radio screen*
- Retains audio controls on the steering wheel
- Allows for auto stop/start override (if equipped)
- Works in both single and dual-zone vehicles
- Allows the retention and adjustment of the OE personalization settings

*Features retained are dependent on the vehicle application. Refer to vehicle-specific instructions for details

AXRSCH-FD3

Fits Ford **2020-UP**

- AXRSC radio status control interface required
- Designed for select aftermarket radios*
- Designed for non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Allows a visual of HVAC and gauges on the aftermarket radio screen*
- Allows adjustment of HVAC functions through aftermarket radio screen*
- Retains audio controls on the steering wheel
- Allows for auto stop/start override (if equipped)
- Works in both single and dual-zone vehicles
- Retains safety chimes (speaker sold separately)
- Allows the retention and adjustment of the OE personalization settings
- **NOTE:** To retain B&O amplified system, the AXA2B-FD1 is needed (sold separately)

*Features retained are dependent on the vehicle application. Refer to vehicle-specific instructions for details

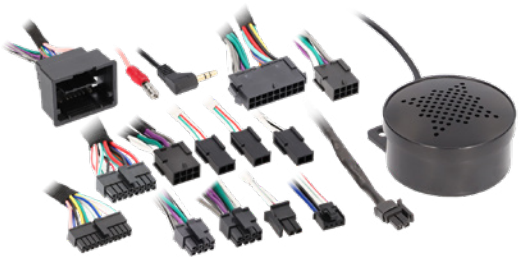

AXRSCH-FD4

Fits Ford **2021-UP**

- AXRSC radio status control interface required
- Designed for select aftermarket radios*
- Designed for non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Allows a visual of HVAC and gauges on the aftermarket radio screen*
- Allows adjustment of HVAC functions through aftermarket radio screen*
- Retains audio controls on the steering wheel
- Allows for auto stop/start override (if equipped)
- Works in both single and dual-zone vehicles
- Retains safety chimes (speaker sold separately)
- Allows the retention and adjustment of the OE personalization settings
- **NOTE:** To retain B&O amplified system, the AXA2B-FD1 is needed (sold separately)

*Features retained are dependent on the vehicle application. Refer to vehicle-specific instructions for details

AXRSCH-GM44
Fits GM **2010-2017**

- AXRSC radio status control interface required
- Designed for select aftermarket radios*
- Designed for amplified or non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Allows for the retention and adjustment of the factory personalization menu through the aftermarket radio screen*
- Provides a visual view of HVAC and gauges on the aftermarket radio screen* (cannot be adjusted via the screen)
- Retains audio controls on the steering wheel
- Works in both single and dual-zone vehicles
- Retains safety chimes through an included off-board speaker

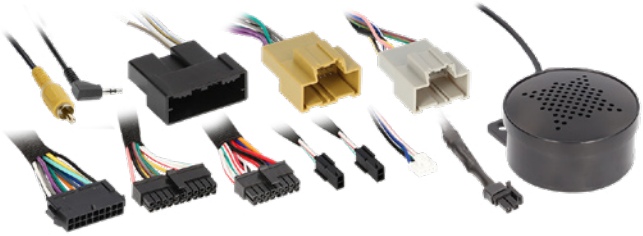

*Features retained are dependent on the vehicle application. Refer to vehicle-specific instructions for details

AXRSCH-GMLN9
Fits GM **2014-2020**

- AXRSC radio status control interface required
- Designed for select aftermarket radios*
- Designed for non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Retains factory backup camera
- Allows visual of HVAC and gauges on aftermarket radio screen* (cannot be adjusted via the screen)
- Allows the retention and adjustment of the OE personalization settings
- Retains audio controls on the steering wheel
- Works in both single and dual-zone vehicles
- Retains safety chimes through an included off-board speaker
- **NOTE:** To retain amplified system AXM50-GM1 is needed (sold separately)

*Features retained are dependent on the vehicle application. Refer to vehicle-specific instructions for details

AXRSCH-GMLN10
Fits GM **2016-2020**

- AXRSC radio status control interface required
- Designed for select aftermarket radios*
- Designed for non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Retains factory backup camera
- Allows visual of HVAC and gauges on aftermarket radio screen* (cannot be adjusted via the screen)
- Allows the retention and adjustment of the OE personalization settings
- Retains audio controls on the steering wheel
- Works in both single and dual-zone vehicles
- Retains safety chimes through an included off-board speaker

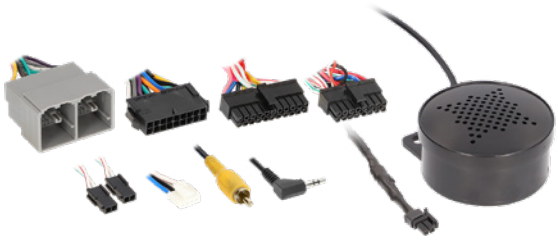

*Features retained are dependent on the vehicle application. Refer to vehicle-specific instructions for details

AXRSCH-GM30
Fits GM **2019-2024**

- AXRSC radio status control interface required
- Designed for select aftermarket radios*
- Designed for non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Allows visual of HVAC and gauges on aftermarket radio screen* (cannot be adjusted via the screen)
- Allows the retention and adjustment of the OE personalization settings
- Retains audio controls on the steering wheel
- Works in both single and dual-zone vehicles
- Retains safety chimes through an included off-board speaker

*Features retained are dependent on the vehicle application. Refer to vehicle-specific instructions for details

AXRSCH-GM31
Fits GM **2019-2024**

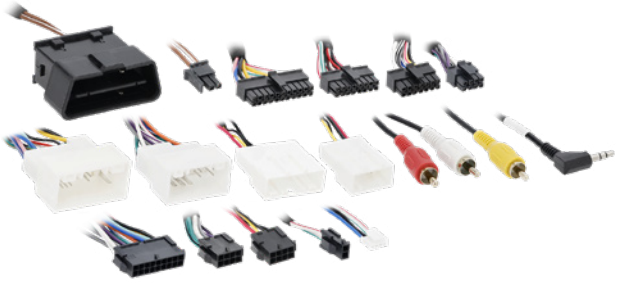

- AXRSC radio status control interface required
- Designed for select aftermarket radios*
- Designed for non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Allows visual of HVAC and gauges on aftermarket radio screen* (cannot be adjusted via the screen)
- Allows the retention and adjustment of the OE personalization settings
- Retains audio controls on the steering wheel
- Works in both single and dual-zone vehicles
- Retains safety chimes through an included off-board speaker

*Features retained are dependent on the vehicle application. Refer to vehicle-specific instructions for details

AXRSCH-HD2
Fits Harley-Davidson **2014-2023**

- AXRSC radio status control interface required
- Designed for select aftermarket radios*
- Designed for non-amplified and amplified models
- Allows adjustment of ETMIS through compatible radios
- Provides accessory power (12-volt 10-amp)
- Retains handlebar audio controls
- Micro “B” USB updatable

AXRSCH-HK1
Fits Hyundai | Kia **2011-2020**

- AXRSC radio status control interface required
- Designed for select aftermarket radios*
- Designed for non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Retains factory backup camera (AXCSD-6V required, sold separately)
- Allows a visual of HVAC and gauges on the aftermarket radio screen*
- Retains audio controls on the steering wheel
- Works in both single and dual-zone vehicles
- Allows the retention and adjustment of the OE personalization settings
- **NOTE:** To retain amplified system, the AXSP-HK is required (sold separately)

*Features retained are dependent on the vehicle application. Refer to vehicle-specific instructions for details

AXRSCH-NI2
Fits Nissan **2013-2016**

- AXRSC radio status control interface required
- Designed for select aftermarket radios*
- Designed for amplified or non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Allows a visual of HVAC and gauges on the aftermarket radio screen*
- Allows adjustment of HVAC functions through the aftermarket radio screen
- Retains audio controls on the steering wheel
- Works in both single and dual-zone vehicles
- Allows the retention and adjustment of the OE personalization settings

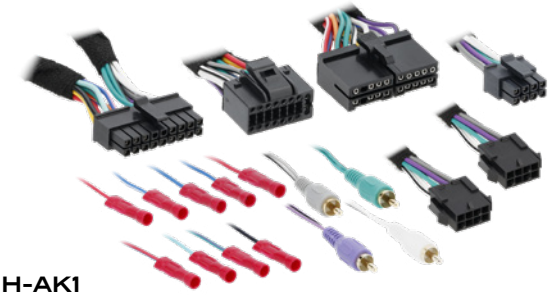

AXRSCH-VW2
Fits Volkswagen **2015-2022**

- AXRSC radio status control interface required
- Designed for select aftermarket radios*
- Designed for non-amplified vehicles
- Provides accessory power (12-volt 10-amp)
- Retains R.A.P. (Retained Accessory Power)
- Provides NAV outputs (parking brake, reverse, and speed sense)
- Retains factory backup camera (AXCSD-6V required, sold separately)
- Allows a visual of HVAC and gauges on the aftermarket radio screen*
- Allows adjustment of HVAC functions through the aftermarket radio screen
- Retains audio controls on the steering wheel
- Allows for auto stop/start override (if equipped)
- Works in both single and dual-zone vehicles
- Allows the retention and adjustment of the OE personalization settings

STEP 3:

AXRSC AKUSTIK RADIO HARNESSING

Don't want to hardwire your Aküstik radio to the AXRSC vehicle-specific harness? Choose this pre-wired, radio-specific direct-connect harness for a complete plug-n-play installation—perfect for faster installs with clean, professional wiring.

AXRSCH-AK1
Fits Aküstik Radios

- Plug-n-play harness to be paired with the AXRSC interface and AXRSC vehicle-specific harnesses
- Compatible with select Aküstik radios
- Radio manufacturer's included harness not required for installation
- No hardwiring required
