SUBWOOFER POWER PACK INSTRUCTION SHEET

Our Subwoofer Power Pack are designed to add powerful low-frequency performance without replacing the factory radio. Utilizing our Axxess interfaces and a vehicle-specific T-harness, this package integrates seamlessly with the OEM audio system while retaining factory features and functionality.

The included VIBE Audio 650.1 mono block amplifier delivers efficient, reliable power for a wide range of subwoofer applications.
Whether paired with an OE Fit enclosure designed specifically for your vehicle or a universal enclosure of your choice, this subwoofer power pack provides a flexible foundation for building a bass system that matches your vehicle and listening preferences.
