CDJ-SUB-KT1

ALL-IN-ONE SUB POWER PACK
FITS CHRYSLER/DODGE/JEEP 2007-2025

SALES 386-257-2956

PRODUCT OVERVIEW

The CDJ-SUB-KT1 Subwoofer Power Pack is designed to add powerful low-frequency performance without replacing the factory radio. Utilizing the Axxess AXSUB interface and a vehicle-specific T-harness, this package integrates seamlessly with the OEM audio system while retaining factory features and functionality. The included VIBE Audio 650.1 mono block amplifier delivers efficient, reliable power for a wide range of subwoofer applications, while the included Raptor 4-gauge amplifier wiring kit provides the components needed for a professional installation. The plug-and-play AXSUB interface connects behind the factory radio, reducing installation complexity and eliminating the need for extensive vehicle modifications. Whether paired with an OE Fit enclosure designed specifically for your vehicle or a universal enclosure, the CDJ-SUB-KT1 provides a flexible foundation for building a bass system that matches your vehicle and listening preferences.

Features:
- All-in-one solution for adding a subwoofer amplifier
- Retains factory radio functionality and vehicle features
- Axxess AXSUB integration interface included
- Vehicle-specific plug-and-play T-harness
- VIBE Audio 650.1 mono block amplifier included
- Raptor OFC 4-gauge amplifier wiring kit included
- Simplified installation with behind-the-radio integration
- Compatible with OE Fit and universal subwoofer enclosures
- Designed for amplified & non-amplified audio systems

Specifications:

Integration Interface: Axxess AXSUB
- 2-channel non-fading 5V RMS output
- Fixed low-pass frequency of 234Hz
- 250mA remote turn-on output
- Bass knob & vehicle-specific harness included
- Installation done at the radio location
- Micro “B” USB updatable

Amplifier: VIBE Audio PB650.1D-V4 Mono Block Class D
- Channel Configuration: 4-channel
- Max Power: 960W
- Power Output @ 2 Ohms: 120W x 4
- Power Output @ 4 Ohms: 100W x 4
- Power Output @ 4 Ohms Bridged: 240W x 2
- Total System Power: Up to 1920W
- Frequency Response: 10Hz - 30kHz
- Input Sensitivity: 0.5V - 6V (RCA)
- High-Level Input Voltage: Up to 35V
- Dimensions: 1.9” H x 9.1” W x 5.3” D

Amplifier Wiring Kit: Raptor 4GA
- Tinned oxygen-free copper (OFC) wiring
- 17’ Pro Series dual-twist RCA cable
- 17’ 4 AWG OFC power cable
- 3’ 4 AWG OFC ground cable
- 17’ 18 AWG remote turn-on wire
- Mini ANL fuse holder with 100A fuse
- (2) Nickel-plated 4 AWG ring terminals
- Installation hardware included
